Photo Courtesy: eclipse_images/E+/Getty Images With the world still dramatically slowed down due to the global novel coronavirus pandemic, many people are still confined to their homes and searching for ways to fill all their unexpected free time. When it comes to escaping the real world and killing a little time, it's hard to beat the magic of some PC gaming. If you're worried about what a gaming hobby could do to your tight budget right now, we've got you covered. The fun of gaming gets even better when you find games you love that you can play for free on your PC. Let's take a look at a few of the top-rated free PC games, according to Tech Radar and PC Magazine, across a range of genres. Fortnite Fortnite is arguably the most popular of the Battle Royale games to hit the tech world in quite some time. The game dumps you into a world with 99 other players, where you engage in a free-for-all battle until only a single player is left standing. Think that sounds bloodthirsty? Well, one of the best parts about the game is that you can play with your friends — regardless of which platform they have, PC or gaming console — so get ready for some "friendly" backstabbing. Photo Courtesy: @FortniteGame/Twitter Even if you aren't playing with friends, it's easy to find a match to join, and the game is highly addictive. If gathering resources, building structures and shooting at your enemies is what you look for in a game, Fortnite is the game for you. League of Legends League of Legends is one of the most highly played multiplayer online battle arena (MOBA) games available for the PC. In this game, you must coordinate with your teammates to destroy the opposing team's base. Don't expect to master the complexities of this game overnight, but the action starts as soon as you click the "play" button. Photo Courtesy: @LeagueOfLegends/Twitter The game rewards careful tactics and good teamwork and is always free to play, but if you want to keep your character after a week or add any special features and enhancements to your game play, you will have to pay a fee. League of Legends uses a freemium model where characters rotate weekly, and certain extras cost money. The game does provide opportunities to earn game currency as you play, which you can then use to purchase champions. Brawlhalla The "brawl" in Brawlhalla pretty much says it all for this fighting game that is similar to the popular Super Smash Bros. by Nintendo. You fight in competitions with up to four players, and the ultimate goal is to knock your opponent out of the arena to score points. Each character has its own set of weapons to use during a match. Like League of Legends, Brawlhalla engages in a weekly rotation of playable characters, but you can always purchase your favorites using in-game currency you collect as you play. Screenrant gave this fighting game a "Very Good" rating. Photo Courtesy: @Brawlhalla/Twitter Smite Smite is another popular MOBA, this one with its champions being gods from ancient pantheons and classic myths. Matches take place between five-person teams that focus on destroying their opponents' bases and towers. The game is played from a third-person perspective, making combat feel much more dynamic. Smite also features a rotating roster of free characters that can be permanently purchased with in-game currency or bought in packs with real cash. PC Gamer rated Smite an 86 out of 100, with particularly high marks for its arena combat. Photo Courtesy: @SMITEGame/Twitter Pro Evolution Soccer 2018 Lite Pro Evolution Soccer (PES) is one of the bestselling video game franchises of all-time around the world. Each year, new editions don't necessarily offer many new features versus previous years, but they do tend to introduce gaming improvements like better dribbling and player responsiveness. The game also continues to make an effort to perfect the fan-favorite Master League mode. Photo Courtesy: @officialpes/Twitter The "Lite" version of Pro Evolution Soccer is free and gives players access to the Online myClub and PES Matchday Mode in Local and Co-op Matches and honing their skills in Training Mode. Some teams and stadiums are only available with the paid version of the game, but fan favorites like FC Barcelona and Manchester United are included. Do you have any suggestions? Email us at biblesupport@tecarta.com Mar 27, 2021 Version 8.0.5 - updated onboarding - updated Facebook sharing - added Sign in with Apple I have been using this app for several years now, and I absolutely love it! This is so easy to use, and it has lots of great features. You can choose from multiple ways to navigate, and, no matter which way you choose, you will be able to quickly access whatever Bible verse you want. Also, you can highlight scriptures in four different colors, underline passages, and create margin notes, bookmarks and general notes. Through in app purchases, you can access several different translations of the Bible like the ASV, Amplified Bible, ESV, KJV, NKJV, NIV and many more. You can also view two versions side by side for easy study. Additionally, other in app purchases include study bibles, commentaries, devotional bibles, one year devotionals, once a day devotionals, Spanish language versions, and audio bibles. I really like all the features that the study bibles offer, which can include book introductions, articles, maps, charts, diagrams, profiles, architectural drawings, master index, concordance, references, and study notes. These features can also be viewed whole width or right alongside the scriptures. I would recommend Tecarta Bible to anybody! If you try it, I'm certain that you will be just as pleased with it as I am. Being a novice at 65 in the world that runs mostly on apps I downloaded the Tecarta Bible App recommended by my wife. So my adventure began. I kind got used to getting the word of the day and I began to explore the app. I live in a mountain so I love the outdoors. I go hiking, cycling and kayaking. I used these activities to renew my mind and the goal is to be in solitude with the Lord. In the past I would bring in my backpack a Bible and a journal. So when I ran into a verse that I did not understand I would write it down and wait to I got home to study my commentaries. With the Tecarta Bible App I have my library in my phone. So when I find that spot deep in the woods. I open my phone and the Tecarta Bible App and it is like sitting in my home office studying the Word of God. I have different Bible versions, the best commentaries, dictionaries and all kinds of devotionals. I can minister to many souls that the Lord sends to me by social media anywhere I am. They bombard me with all kinds of questions and I can be in my kayak in the middle of a lake and use all the resources available in the Tecarta Bible App. In fact, I am writing this review sitting on my deck driving my coffee watching the forest wake up. ☺☺☺ I have tried many Bible apps, even sophisticated, expensive laptop ones, but Tecarta is by far the easiest one I have used to organize notes. I like to take notes when I read, and Tecarta's system of folders and notes makes it easy to be as detailed or simple as you want. The ability to place a note right alongside the verse is wonderful. It is also great to have the ability to place notes in folders and folders within folders, i.e. a folder on Jesus Christ with sub folders on His birth and early life, His parables, His death and resurrection, etc. Or having a folder for each book of the Bible with separate notes each chapter. The possibilities are endless. It is also nice to be able to highlight or underline verses or portions of verses, or to bookmark verses for placement within folders. Helpful, too, is the ability to insert selected Bible verses within a note. It is nice to be able to sample Bible versions or books before purchasing them, and their prices are more reasonable than those of many other apps, especially when they are on sale. It is one of the few apps I use every day. I love it.
